BRIEF SUMMARY

Software Engineer with 1+ year of experience in Java and full-stack web development. Proficient in building scalable solutions using Java, Node.js, and SQL. Skilled in problem-solving, team collaboration, and implementing efficient code for real-world projects.

EDUCATION

Master of Computer Applications (MCA) (Ongoing), Bharati Vidyapeeth IMED Pune. 2023- 2025
First Year GPA: 8.4/10.00

BBA(CA), Sinhgad College of Commerce Pune. 2019 - 2022
CGPA: 9.3/10.00

HSC, S.M Joshi College Pune, Maharashtra. 2019
Percentage: 62.62 / 100

SKILLS

Technical Skills: Core Java, C++, JavaScript, C#, ReactJS, NodeJS, HTML/CSS, Git and GitHub, Selenium, Data Structures and Algorithms, SQL, DBMS.

Soft Skills: Problem Solving, Communication, Continuous Learning, Attention to Detail.

Experiences

Java Developer Aug 2022 – Oct 2023
Capgemini Technology Services India Ltd. *Mumbai, Maharashtra*

- Demonstrated proficiency in Java programming language and object-oriented design principles. Implemented Create, Read and Delete Operations on Java Content Repository (JCR) in AEM.
- Created Sling Models in Java to fetch and expose data. Accessed the Sling Model properties in an HTL template. Analyzed and refactored java OSGI components as per the business requirements.
- Utilized IDEs like Eclipse or IntelliJ IDEA for Java application development. Employed version control systems such as Git.

PROJECTS

RealTimeChat App– Recieve Messages Being Typed ↗: Created real-time message viewing, allowing end users to see messages as they are being typed. Reduced chat history stack, enhancing privacy. Enabled users to log in and register for personalized access. Facilitated the creation and joining of chat rooms for group communication. Displayed online users in real time for easy connection. Utilized technologies like **Socket.JS** and **Express.JS** for efficient performance.

Groot – A fun puzzle game on your browser ↗: A simple yet intuitive game where a picture is shown to the user and is scrambled right after few second. The animation used in scrambling the pieces of picture is transitional. The demo is played for the user before the game starts using interactive animated elements. Utilized technologies like **HTML-CSS-JavaScript**.

CERTIFICATIONS

- [Data structure and Algorithms using Java | NPTEL \(Govt. of India\) ↗](#)
- [DB0101EN: SQL and Relational Databases 101 | IBM ↗](#)

ACHIEVEMENTS

- Two-time runner-up of Inter-College Coding Competition
- Successfully managed and concluded a coding competition in college by utilizing technical expertise.
